YIS-3494

Calf Puller Easy to operate Zig-zag action. Extra long 65" with 12" extension for a total size of 77". Three separate hook attachments. Special 2 piece shaft for storing. Grooves made with great accuracy to guarantee against slippage. 100% Zinc plated heavy-duty guage. Breaching chain and nylon strap also included! Weight: 26lbs (12kgs).

YIS-3495

Deeper nickel-plated grooves on the pole allows easier pulling. Reinforced breech. Extra long pipe sections for large breed cows. Blue molded plastic handle for easy cranking. Two longer ratchet release levers are formed to the fingers. Deeply cut threads in pipe sections prevent ratchet from slipping. Three hooks to attach OB strap or chain. Approximately 64".

YIS-3496

Bovine Cervical Forceps 12" Stainless Steel

YIS-3497

5" With one large finger tip with handle adapted to the palm.

YIS-3498

8" Double action OB Hook bites into part of Fetus in the process of embryotomy.

YIS-3499

8" Double action OB Hook bites into part of Fetus in the process of embryotomy.

YOU IN SURGICAL

YIS-3500

Vienna Double Blunt Eye Hook 5-1/2 Hinged for easier placement.

YIS-3501

B Wire Guide 7" It helps to bring wire around any tight or difficult location on the fetus.

YIS-3502

Suture Style OB Handle saw wire cuts through bone and horns quickly. Comes in forty-foot rolls of 17mm (0.7") saw wire. The stainless steel saw wire handles aid in using the O.B. saw wire. They have a knrled non-slip grip. Handles (sold in pairs) and wire are sold separately.

YIS-3503

Lyss OB Handle 3" Grasp to make it easy to change position on OB Wire.

YIS-3504

Pig Obstetrical Forceps 23" Forceps open sideways, Softly hold piglet either around the head or hips

YIS-3505

Puppy OB Forceps 8" Stainless Steel

YOU IN SURGICAL

YIS-3506

Farrowing Forceps for Piglets Stainless Steel

YIS-3507

OB Chain Handle Stainless Steel

YIS-3508

OB Chain Aids in the use of O.B. chains or O.B. straps (below). One-piece nickel-plated handle with blue-coated grip for extra cushion and easier gripping.

YIS-3509

30" & 60" High-quality, heavy nickel-plated obstetrical chains. Convenient to use and easy to keep clean and sanitary. Chain gives a good grip on the calf, but injury when being used to assist a cow having difficulty calving. Chains are more sanitary than ordinary rope. Available in two lengths. Can be used with OB Handle.

YIS-3510

Barne Dehorner 13" Wooden Handle

YIS-3568

Barne Dehorner Now made of durable, high-grade black tempered steel. Cupped cutting edges on inside permit operator to cup out horn button, and they overlap for clean, sharp cuts. Available in two sizes with steel handles and nubber grips one size with wood handles

YIS-3569

Balling Gun Reusable metal balling gun in metal head style. Ideal for animals taht may bite the bolus applicator. Mature cows, 1" diameter x 2-1/2" metal head with brass retaining clips; overall length is 17-1/2" nickle-platted to resist corrosion and breakage

YIS-3570

Balling Gun (Balling Gun) Large Animals; 1" diameter plastic head with brass clips; overall length is 17-1/2".

YIS-3571

Balling Gun Small animals; 5/8" diameter plastic head with brass clips; overall length is 13".

YOU IN SURGICAL

YIS-3571

Balling Gun Enlarged to give the foreign body magnets. Flexible inner diameter 1.5"

YIS-3572

Multi Bolus Balling Gun Nickel-Plated metal balling gun which holds up to six large boluses at one time. Uses a spring-action end-clip to secure boluses in barrel.

YIS-3573

British Capsule Forcep Excellent for capsuling sheep or horses. Stainless Steel construction. 12" overall length.

YIS-3574

One Hand Sheep Clipper

YIS-3575

Two Hand Sheep Clipper

YIS-3576

Black Blue Sheep Shear, 13.6" Made of hardened and tempered steel. Rubber stoppers smoothen shearing. Straight blades 6.4", Large Model.

YOU IN SURGICAL

YIS-3577

Black Blue Sheep Shear, 12" Made of hardened and tempered steel. Rubber stoppers smoothen shearing. Straight blades 6.4", Large Model.

YIS-3578

Sheep Shear 10.6", Bent Blade 4" bent blades. Single bow. Painted handle.

YIS-3579

Single Bow Sheep Shear 6 1/2" long, extremely sharp blades from Englands largest and best manufacturer of shears, Burgon and ball. Unique, hand-forged, with excellent longevity using Sheffield steel. Rolled bow feature and process produces an easier action shear but increases the strenght of the bow. It will not fracture in use.

YIS-3580

Double Bow Sheep Shear Unrigged English style sheep shears with double bow. For trimming, tagging, blocking and preparing sheep for show rings. Ideal for all around use. Straight 6" blade. Made with red enamel handles with leather grips

YIS-3581

Foot Rot Hoof Shear Also available with one blade serrated and in leather holdter.

YIS-3582

Foot Rot Hoof Shear The best footrot shear in the world from Burgon and Ball. Up to 60% more cutting power (independent lab tests). Precision ground serrations on the upper blade edge bite into the hoof, giving maximum grip and eliminating slippage. The lower blade slices through hard hoofs with minimum effort and greatest precision. The high carbon steel blades are hardened
